Letter send to all Matching Supporters about the Matching Committee:

Dear Matching Supporters,

This letter is to inform you about changes that have been made regarding the Matching Process for First Generation Candidates.

The matching committee was created in 2010. At the time, our team of Matching Supporters in North America were just beginning to be trained and many of them did not feel completely confident to support members as they met and began the matching process. Therefore, the USA Matching Committee was created as a support mechanism.

The Matching Committee has been a very valuable resource and we are very grateful for each Member who contributed their time and input.

Today, we have many resources for Matching Supporters on the [Blessing and Family Ministry](http://Blessing and Family Ministry website) website, and also through the following pages: <https://bfm.familyfed.org/matching-supporters/> .

We also have four Matching Supporter Coordinators that are always available to offer support. Therefore, it was recently decided that the Matching Committee does not need to exist any longer.

When two qualified individuals decide that it is time for them to start the introduction phase, and they have the support of their Matching Supporters, please allow them to begin the 3 week introduction phase, and follow their progress as you have always done. It is wise that each person continue to consult with their Matching Supporter on a regular basis so that you are aware of the progress they are making, and any difficulties that they experience.
